Public Notice Concerning Kansas / Federal
Water Pollution Control Permits and Applications

State of Kansas
Department of Health and Environment
Division of Environment-Bureau of Water
1000 SW Jackson St., Suite 420
Topeka, Kansas 66612-1367
Telephone: (785) 296-6432 - Ag Permits
(785) 296-5517 - All Others

Public Notice No. KS-AG-18-114/126
Public Notice No. KS-Q-18-111/112

Beginning Date: June 14, 2018
Comments Due: July 14, 2018

In accordance with Kansas Administrative Regulations 28-16-57 through 63, 28-18-1 through 17, 28-18a-1 through 33, 28-16-150 through 154, 28-46-7, and the authority vested with the State by the administrator of the U.S. Environmental Protection Agency, various draft water pollution control documents (permits, notices to revoke and reissue, notices to terminate) have been prepared and/or permit applications have been received for discharges to waters of the United States and the state of Kansas for the class of discharges described below.

The proposed actions concerning the draft documents are based on staff review, applying the appropriate standards, regulations, and effluent limitations of the state of Kansas and the Environmental Protection Agency. The final action will result in a Federal National Pollutant Discharge Elimination System Authorization and/or a Kansas Water Pollution Control permit being issued, subject to certain conditions, revocation, and reissuance of the designated permit or termination of the designated permit.

Public Notice No. KS-AG-18-114/116

Application(s) for New or Expansion of Existing Swine Facilities

Kansas Permit No. M-MO02-OO01

Federal Permit No. KS0047244

Legal Description: SE¼, NW¼, NW¼, S16, T1S, R13E, Nemaha County, Kansas

The proposed action is to reissue an existing State/NPDES permit to an existing facility. This facility is a two-cell industrial wastewater pretreatment system and a three-cell conventional wastewater stabilization lagoon system. The proposed permit contains limits for biochemical oxygen demand, total suspended solids, and ammonia, as well as monitoring for pH and E. coli.

Persons wishing to comment on or object to the draft documents and/or permit applications must submit their comments in writing to the Kansas Department of Health and Environment if they wish to have the comments or objections considered in the decision-making process. Comments or objections should be submitted to the attention of Livestock Waste Management Section for agricultural related draft documents or applications, or to the permit clerk for all other permits, at the Kansas Department of Health and Environment, Division of Environment, Bureau of Water, 1000 SW Jackson St., Suite 420, Topeka, Kansas 66612-1367.

All comments regarding the draft documents or application notices received on or before **July 14, 2018**, will be considered in the formulation of final determinations regarding this public notice. Please refer to the appropriate Kansas document number (KS-AG-18-114/126, KS-Q-18-111/112) and name of the applicant/permittee when preparing comments.

After review of any comments received during the public notice period, the Secretary of Health and Environment will issue a determination regarding final agency action on each draft document/ application. If response to any draft document / application indicates significant public interest, a public hearing may be held in conformance with K.A.R. 28-16-61 (28-46-21 for UIC).

All draft documents / application and the supporting information including any comments received are on file and may be inspected at the offices of the Kansas Department of Health and Environment, Bureau of Water, 1000 SW Jackson St., Suite 420, Topeka, Kansas. These documents are available upon request at the copying cost assessed by KDHE. Application information and components of plans and specifications for all new and expanding swine facilities are available on the Internet at <http://www.kdheks.gov/feedlots>. Division of Environment offices are open from 8 a.m. to 5 p.m., Monday through Friday, excluding holidays.

Secretary
Kansas Department of Health and Environment

Coffeyville, Kansas

Notice of Proposed EPA and KDHE Approval of Revisions to Coffeyville Industrial Pretreatment Program

The City of Coffeyville has proposed changes to its industrial pretreatment program, which regulates and controls wastewater contributions from industrial and other non-domestic wastewater sources, to the city sanitary sewer. The proposed changes would adopt technically-based local limits, previously approved by the U.S. Environmental Protection Agency and the Kansas Department of Health and Environment, specifically for the City Wastewater Treatment Plant.

The City has requested EPA and KDHE approval of the proposed changes. The proposed changes have been prepared in a manner that the City believes will remain fully protective of the environment. You may obtain a copy of the proposed program changes by contacting the City of Coffeyville, using the contact information below.

The City and Region 7 EPA will accept comments and views on the proposed industrial pretreatment program changes for a period of 30 days following the date of this publication. All written comments and views will be considered by EPA and KDHE in determining whether it will issue final approval of the proposed changes. If no substantive comments are received, EPA and KDHE will approve the Pretreatment program changes, as proposed.

You may also request within the 30-day period that Region 7 EPA hold a public hearing on the proposed revisions. Any request for public hearing should be directed to Region 7 EPA and should indicate the interest of the person filing such request and the reasons why a hearing is warranted.

Comments and any public hearing requests should be provided by mail, email or other written form to the following:

U.S. Environmental Protection Agency
